

**Creative Director: Mia**  
**Designer: Arushee**  
**Project Title: KONY2012**

**Mockup Review:**

1. The mockups were designed for a multiple page website, but we decided that one page would work better. There will be a menu along the top that could incorporate javascript transitions to click and scroll.
2. Serif fonts could be replaced with a simpler font.
3. The infographics can go beyond line graphs.
4. We decided that the Jason Russell doesn't necessarily fit with the rest of the website's message.
